Texarkana, AR 71854

Regional Lead Representative Kita Cantu earned a degree in Early Childhood Education specializing with children with disabilities from Ashford University in 2014. She works with children of all ages, helping them strive for success, "while seeing a need for more prevention efforts to be present in the schools."

Kita began working for Harbor House Inc. in August of 2019 to pursue her passion in prevention.

"Having addiction in my family and having the knowledge and experiences of how drug and alcohol abuse can tear a family apart makes me strive to educate our youth," Kita said, "So they can make better choices & help their peers and their communities. I have a strong passion to help others and I am very happy to see my community thrive."
